

Valve Accessory

Spring Loaded Tamper Proof Locking Device

Lift-n-Lock

The Jomar locking device prevents unauthorized use during maintenance or down-time. The locking device is attached over the stem and handle and held in place with an allen screw that is threaded into the center of the stem. With the padlock in place, the allen screw is not accessible, making it a tamper proof design. Will fit any T-100, S-100 or JP-100 series ball valve.

Locks Both Open & Closed			Locks Only in Closed Position		
Part No.	Size	Type	Part No.	Size	Type

Valve Accessory

Spring Loaded Tamper Proof Locking Device

Stem Extension

The Jomar handle extensions are available for applications where it is necessary to extend the valve handle approximately 2" higher from it's original position. Fits on any T-100, S-100 or JP-100 series ball valve.
