

TRIO® Boiler Optional Components

FuelSmart
Hydrostat 3250

PurePro Energy Manager Plus II

The PurePro® Energy Manager Plus II integrates a 5 zone relay board, boiler aquastat, low water cutoff, and boiler reset. This all-in-one, simple to use control comes completely pre-wired.

The PurePro Energy Manager Plus II features the Honeywell AQ25042B multiple zone control and the Hydrolevel 3250 HydroStat®. The HydroStat 3250 uses Thermal Targeting™ to match the heat load and boiler water temperature. To further enhance fuel efficiency, the fuel smart HydroStat is also equipped with a thermal pre-purge feature. When activated, the control will purge standing heat in the boiler at the start of any thermostat call, supplying the free latent energy to the heating zone that is calling.

PurePro Indirect Water Heaters

PurePro Indirect Water Heaters are designed for long life and high performance with a ready reservoir of hot water to satisfy every home's peak load time. From the highly efficient Plug n' Go Plus to the value priced Pro100 series, the broad offering of 41- and 80-gallon models can handle every application while offering an optional lifetime warranty, providing extra protection and peace of mind.

Features:

- Ask about the Plug n' Go PLUS, the only pre-piped, pre-wired, packaged indirect water heaters in the industry!
- Plug n' Go Plus can be used with the PurePro Energy Manager Plus control, with plug and play features that make installation a snap.
- Six-year standard warranty with limited lifetime option.
- Homeowner-purchased warranty upgrade available (upgrade registration included in carton).

3+1 Universal EZ Zone Pack Kit

3+1 Universal EZ Zone Pack

Boiler Header System with 3 pre-installed Caleffi Z-One zone valve bodies, 3 Webstone shutoff valves with purge, and additional high-flow port connection for a PurePro Indirect water heater.

5+1 Universal EZ Zone Pack

Boiler Header System with 5 pre-installed Caleffi Z-One zone valve bodies, 5 Webstone shutoff valves with purge, and an additional high-flow port connection for a PurePro Indirect water heater.

Universal EZ Zone Packs

In an easy-to-use box, the PurePro Universal EZ Zone Pack Kit has everything you need for a boiler header system with up to five heat zone valves. With their pre-installed Caleffi Z-One zone valve bodies and Webstone shutoff valves w/purge, Universal EZ Zone Pack Kits save over two hours of labor. The NPT connections allow installation, flexibility to press, sweat, copper, and Pex. PurePro offers a "two for one" Caleffi Zone Valve Guarantee. If a Caleffi zone valve fails, we will give you a second zone valve **FREE**.
