

LaundryMate® and IceMate™

The Most Reliable Mates Around!

Our widest, most versatile recessed laundry and icemaker boxes will fit right in.

Does the blueprint call for a laundry valve or an ice maker? Maybe both? Save time, money, and the skin on your knuckles by installing the new **LaundryMate®** and **IceMate™** recessed valve boxes from Symmons. Most boxes on the market are cramped and barely have enough room for the valve, not to mention the supply or drain lines (or your hands!).

The redesigned LaundryMate and IceMate boxes are the widest available, yet two boxes will fit within a 16" stud bay. Each box is configurable to accommodate piping from any direction, and they're modular, with an interlocking tab system to make aligning boxes a snap.

Smooth quarter-turn ball valves mean easy shutoff after cycles or before vacations, and optional water hammer arrestors keep the peace inside the walls. LaundryMate has been redesigned with individual hot and cold shutoff valves to meet code requirements in certain areas.

**NO MORE
SCRAPED
KNUCKLES!**

Widest box available makes it easier—and painless—to install, while still allowing two boxes in one 16" stud bay.

**GOOD MATES
STICK TOGETHER!**

Versatile modular interlocking box design gives you the flexibility to configure the best water supply and drain line locations in the field, depending on your jobsite's layout.

**KNOCK
OFF THAT
RACKET!**

Avoid disturbing the peace with optional factory-installed certified water hammer arrestors for LaundryMate and IceMate valves.

**CHEERS TO
A CLEAN
INSTALLATION!**

Ball valve supply in a flush-mounted box allows for a full fridge recess without piping damage.
