

UNIQUE Off Grid Appliances

All Unique 6/8/10/13/15/18/22 fridges and Unique 2/6F freezers along with our off-grid gas propane ranges receive one year coverage on parts - the end-user is responsible for labour. Unique's propane fridge absorption coil warranty for these products is for five years. The Unique 2 and 3 come with a one year parts warranty, as do the Unique gas ranges. Unique provides excellent parts department support and product knowledge. If the unit fails, it is the end user's responsibility to return the item in question to the original retail store (due to the remote nature of where these products are often placed). If a retailer offers out of store warranty calls, you must deal with them directly.
