

3+1 Universal EZ Zone Pack Kit

In an easy-to-use box, the PurePro Universal EZ Zone Pack Kit has everything you need for a boiler header system with up to five heat zone valves.

With their pre-installed Caleffi Z-One zone valve bodies and Webstone shutoff valves w/purge, Universal EZ Zone Pack Kits save over two hours of labor. The NPT connections allow installation, flexibility to press, sweat, copper, and Pex.

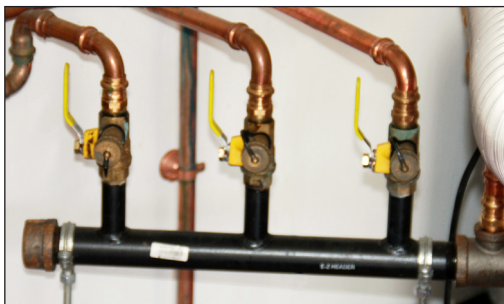

PurePro offers a “two for one” Caleffi Zone Valve Guarantee. If a Caleffi zone valve fails, we will give you a second zone valve **FREE**.

3+1 Universal EZ Zone Pack

Boiler Header System with 3 pre-installed Caleffi Z-One zone valve bodies, 3 Webstone shutoff valves with purge, and additional high-flow port connection for a PurePro Indirect water heater.

5+1 Universal EZ Zone Pack

Boiler Header System with 5 pre-installed Caleffi Z-One zone valve bodies, 5 Webstone shutoff valves with purge, and an additional high-flow port connection for a PurePro Indirect water heater.

Installed 3+1 Universal EZ Zone Pack
